RESPONSE
TO ELECTION/RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

This paper, transmitted by facsimile, responds to the Office Action (election/restriction requirement) mailed January 4, 2006.

Pursuant to the election/restriction requirement applicants elect SEQ ID NO: 9 and SEQ ID NO: 14, as the two nucleotide sequences (in addition to previously elected SEQ ID NO: 7), with traverse. All remaining claims read on the elected species, and all elected species are directed against TGF- β 2.

Applicants traverse since, under MPEP 2434, nucleotide sequences encoding the same protein are not considered to be independent and distinct and will be examined together. In the present case, SEQ ID NOS: 1-32 are antisense oligonucleotides corresponding to a single gene encoding a single protein, i.e., protein TGF- β . Accordingly, SEQ ID NOS: 1-32 are not independent and distinct from one another.

Favorable action is requested.

Respectfully submitted,

400 Seventh Street, N.W.
